In close touch with mountains

Dear friends of the ÖTZTAL NATURE PARK,

the ÖTZTAL NATURE PARK and its unique hiking program gives an insight into the valley's most scenic spots, a wonderful Alpine glacier world with all the little details and secrets and Ötztal's scenic landscapes of awesome natural beauty.

Passionate walkers can choose from 19 weekly theme hiking tours taking place throughout the valley and 20 interesting lectures on special nature park topics. Discover Ötztal's magic and variety together with your family.

...and summer has finally arrived!

We look forward to your visit,

ÖTZTAL NATURE PARK Team

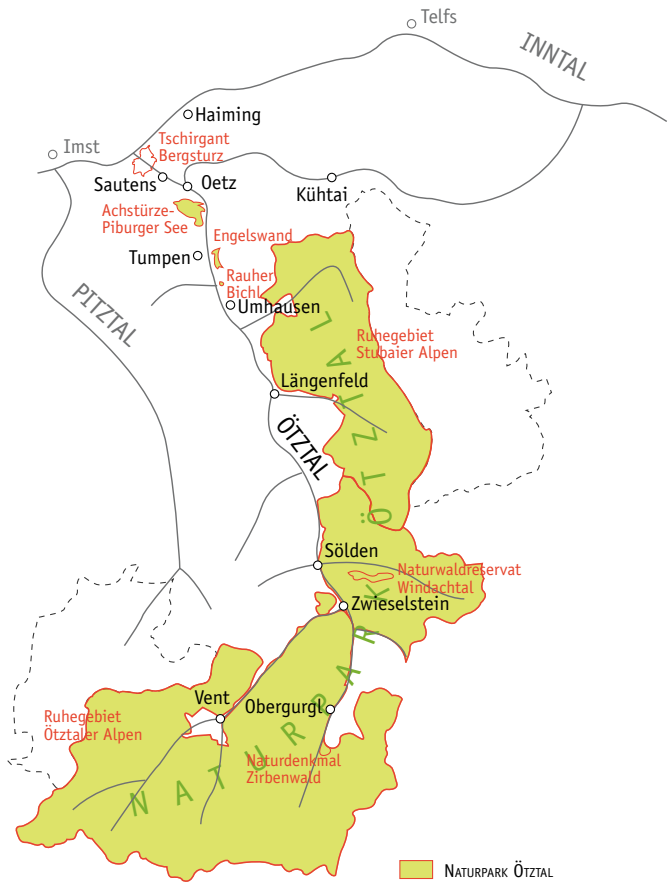

ÖTZTAL NATURE PARK - Short Profile

The ÖTZTAL NATURE PARK comprises different environmentally protected areas in the Ötztal. The protected area stretches from the valley floor up to high Alpine glacier regions. Its highest point is Ötztal's Wildspitze peak at 3774 m above sea level. The mountain villages of Vent (cradle of the Alpine Association) and Obergurgl (Tirol's highest parish), as well as Niederthai/Umhausen and Gries/Längenfeld are located right at the heart of the ÖTZTAL NATURE PARK – making a perfect base for mountain exploration.

The splendid ÖTZTAL NATURE PARK comprises a number of almost untouched, **protected mountain areas in the Ötztal Alps** and **Stubai Alps** which are characterized by fascinating high Alpine landscapes and huge glacier regions. The **unspoilt forest areas** in Sölden's **Windachtal** feature century-old stone pine populations. The precipitous Engelswand rock face near Umhausen, an official Tirolean and **European Natura 2000 Preserve**, offers an insight into the varied flora and fauna in an almost vertical habitat. Another protected area can be found at the entrance to the Ötztal: the huge **Achstürze-Piburger See** region boasts an idyllic mountain lake amidst a huge rockslide area.

The 5 main aims of the ÖTZTAL NATURE PARK are to protect nature, preserve unspoilt landscapes, increase recreational values and promote scientific and cultural research in the region. Both the ÖTZTAL NATURE PARK association and administration office can be found in Obergurgl.
